Holts Prairie Cemetery

The Holts Prairie Church Cemetery is 2 miles east of Pinckneyville and one mile south of Illinois Route 154. The cemetery is owned and maintained by the Holts Prairie Baptist Church.

Holts Prairie Baptist Church was organized August 10, 1872 and probably used part of the original church property for burial until September 1902 when a half acre of ground was bought from Elmer Harriss for a burial ground. In April 1935 another half acre was bought from the Harriss family. This ground was on the north side of the church property behind the church building.

The church had to relocate in 1984 because of the strip mines, but the cemetery remains at the original location surrounded by the coal mines.

Nine Mile Cemetery

In 1836 Leonard and Barbara Lipe deeded to the "Deacons of the Baptist Church of Jesus Christ at Nine Mile for a meeting house and a place of interment of the dead".

Part of the NW 1/4 of the NE 1/4 of Section 1, Township 6S R2W -28 poles x 20 poles (a little over 3 acres)

For some reason this location was abandoned by the church

In 1845 Peter and Frances Hagler deeded to the "Trustees of the Nine Mile Meeting House" a parcel of land "which commences at a white oak tree eight chains and forty two hundredths chains west from the NE corner of the E 1/2 of the SW 1/4 of Section 25, Township 5S R2W and runs south 8 chains thirty degrees west thence east 8 chains thirty degrees east thence west 8 chains to the place of beginning containing three acres and seventy six pole."

The Nine Mile Church was organized in 1829 in Peter Hagler's log cabin. The early church records were lost in a fire, so we do not know what prompted the move in 1845. Consol Coal company stripped the site of the original cemetery (deeded by Leonard Lipe). A few graves were moved to the present cemetery, but remained unmarked.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud. The text also notes that clear and concise reporting is necessary for effective decision-making by management and other stakeholders.

2. The second part of the document focuses on the role of internal controls in ensuring the reliability of financial information. It describes how a well-designed internal control system can help to minimize the risk of errors and misstatements, and how it can provide a reasonable assurance of the accuracy and completeness of the financial data. The text also discusses the importance of regular monitoring and evaluation of the internal control system to ensure its effectiveness over time.

3. The third part of the document addresses the issue of transparency and disclosure in financial reporting. It highlights the need for companies to provide timely and accurate information to investors and other interested parties, and to disclose any potential risks and uncertainties that may affect the company's financial performance. The text also discusses the importance of clear communication and the use of plain language in financial reports to ensure that the information is accessible and understandable to all users.

4. The fourth part of the document discusses the role of external audits in providing independent assurance of the reliability of financial information. It describes how an external audit can help to identify and address any weaknesses in the internal control system, and how it can provide a level of confidence in the financial data that is not possible through internal controls alone. The text also discusses the importance of a strong audit culture and the role of the audit committee in overseeing the audit process.

5. The fifth part of the document discusses the role of the board of directors in overseeing the financial reporting process. It highlights the board's responsibility for ensuring that the financial statements are prepared in accordance with applicable accounting standards and that they provide a true and fair view of the company's financial position. The text also discusses the importance of the board's active involvement in the financial reporting process and the role of the chief financial officer in providing the board with the necessary information and advice.

Dry Cemetery

John F. Dry was the first person buried in what was to be known later as the Dry Cemetery. He was buried on August 25, 1842 on a plot of land he owned. Mary Ann Dry, widow of Paul and daughter-in-law of John F. Dry decided to set aside the plot of land where her husband and children were buried. The area she reserved contains nearly one acre for burial and an access road.

Mary Ann Dry conveyed the land by warrenty deed to Sarah Thornsberry and the Trustees of Holts Prairie Church. The deed was filed August 3, 1878 and can be found in the Perry County Courthouse in Deed Record 4, page 556.
